Is the number of isolated/shielded staff who can work remotely adequate to maintain services?

Use of Remote Solutions

Kent & Medway CCG - Overall PPE Stock Status

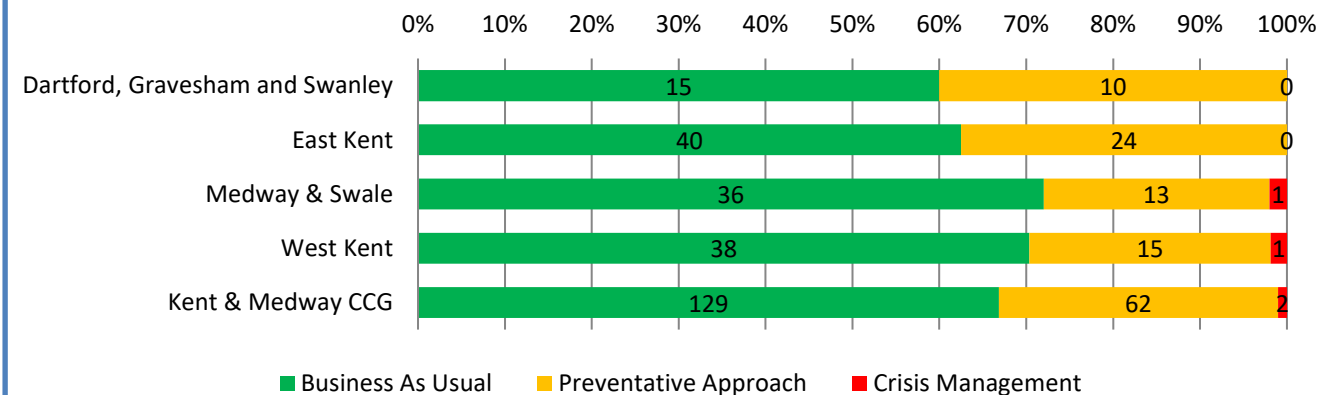

19 (9%) of the practices responding have reported critically low stock of at least 1 item. This continues to improve from last week's position.

West Kent and Medway & Swale ICPs are reporting the fewest issues with PPE overall.

Fluid resistant masks are in the shortest supply.

One of the main issues highlighted is the need for a clear pathway to order PPE, and increased prices of antibacterial wipes and hand gel.

Overall Status

2 practices are reporting their status as Crisis Management across Kent and Medway.

A number of practices have highlighted the lack of GPs receiving copies of Covid test results taken in hospitals.

Practices have also flagged that there is a need to streamline and make more accessible information provided regarding the pandemic.
