

# Emergencies in Primary Care Simulation Training

**The Kent and Medway Primary Care Training Hub are delighted to offer clinical colleagues across Kent and Medway the opportunity to attend an emergencies in primary care simulation session facilitated by members of the Kent Surrey and Sussex Primary Care simulation faculty.**

We will be using some of the higher fidelity manikins available in the hospital simulation suite to run a number of different emergency scenarios which can occur in a primary care setting, allowing both those who have already attended a session at a Protected Learning Time afternoon, and colleagues who have not had any experience of simulation for primary care to benefit from the day.

## There are two sessions available:

Tuesday 14th November, 9:30am – 4:00pm,  
Simulation centre, William Harvey Hospital, Ashford.  
(Registration 9–9.30am)

Click the Event Brite logo to book your place

OR

Saturday 25th November, 9:30am – 4:00pm,  
Education centre, Tunbridge Wells Hospital  
(Registration 9–9.30am)

Click the Event Brite logo to book your place

**Places are strictly limited to allow for everyone to take part in an scenario in a safe, supported environment. Please book asap to guarantee a place.**

*Here's what participants say:*

"absolutely excellent course which exceeded my expectations. Usually I hate role playing but at all times I felt supported and not judged"

"There is no cost to the practice or PCN"

"I was terrified of coming but this was the best and most useful course I have ever been on"

**For queries (including if you may need flexibility on timing or any access issues) please email – [jane.roome@nhs.net](mailto:jane.roome@nhs.net)**
