

Patient safety in remote consultations- virtual forum

Wednesday 27 March 2024, 12:30 - 14:00

NHS Resolution's Safety and Learning team, are hosting a virtual forum on the recently published research conducted by Dr Rebecca Payne and Professor Greenhalgh into the safety of remote consultations.

The purpose is to share the findings and recommendations from the analysis of multiple sources of patient safety intelligence including NHS Resolution's complaints, NHS England claims and incident data and cases from the Health Science Safety Investigation Bureau (HSSIB).

The format is interactive, with presentations followed by questions and panel discussion.

Contributors:

- **Dr Rebecca Payne** – Lead Author and General practitioner | University of Oxford
- **Prof Trisha Greenhalgh** – Chief investigator of the Remote by Default study| University of Oxford
- **Dr Anwar Khan** – Senior Clinical Advisor for General Practice| NHS Resolution

Event programme:

- Patient safety in remote consultations | University of Oxford
- Q&A panel discussion
